What to Bring

Upcoming Scuba Trip

Florida Manatee Adventure
January 16-19, 2014

Blue Region Scuba's Manatee and Florida Springs Adventure
January 16th-19th

If you have not done this great BRS Adventure, you are missing out on some great FUN! This is a trip to do again and again as it is laid back with great diving, great food and great company with the fantastic divers of Blue Region Scuba. It is fantastic to look eye to eye to one of the large Manatee and enjoy the interaction of man and animal. These big critters enjoy the human touch and will be around you wanting to be rubbed. Get your camera's ready as there will be plenty of photo ops.

The Springs of Florida are just plain fun to dive. Crystal clear water and a warm 72 degree temperature. We will venture into caverns, watch sand boil, enjoy the darkness of the caverns, watch the fish swim by and just float looking at the local flora and fauna. In the cold winter months in North Carolina, it is pleasant visiting a more temperate area.

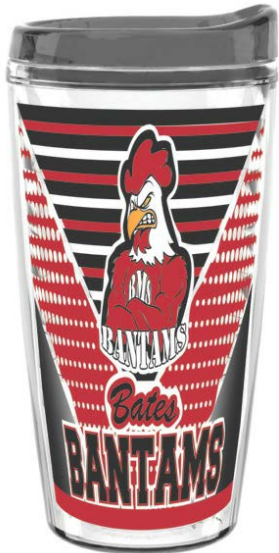

Join in on this relaxing Adventure that will thrill the whole family. Come secure your spot on this fantastic trip.
