

### Computer Charges and Damage Fees

Students will be charged for damages to their computers based on the following:

First occurrence -	\$10
Second occurrence -	\$25
Third (and each additional) occurrence -	\$50
Lost Charger	\$50
Lost Computer	\$500 (plus cost of charger if applicable)
Lost Battery	\$125

Please refer to the "Damage" section of the **Student Assigned Computer Use Agreement**. Students will only be charged for physical damage. Hard drive/software issues, in most cases, will not result in charges unless it is determined the student intentionally attempted to alter the computer in some way or the problem is a result of physical damage such as a dropped computer.

Students are encouraged to protect their equipment by not leaving it in a book bag where others might step on it, or placing it on the edge of the desk where it might fall off or get knocked onto the floor, and by not allowing others to use it. These are just a few examples of how students can protect their equipment. So often we suspect that accidents such as those listed above are the root of the damage. In addition, parents, please stress to your child the importance of, as well as his/her responsibility for, always having a fully charged computer at school as that is an essential part of being prepared for class each day. It is the goal that all students have a working computer with access to all educational resources and assignments in order to take advantage of the education offered at Bear Grass Charter School.
