

**NCStar** is a web-based tool that guides a district or school team in charting its improvement and managing the continuous improvement process. **NCStar** builds accountability as well as helps schools track their improvement plans. **NCStar** is premised on the firm belief that district and school improvement is best accomplished when directed by the people, working in teams, closest to the students.

**NCStar** brings all stakeholders into the continuous improvement process by allowing "view only" capability and "real time" transparency of the school improvement plan process to all staff, district personnel, school board members, and parents.
