6/2/2020

Every year the North Carolina Department of Public Education puts out a School Report Card for Bear Grass Charter School, and all other NC schools, based on data from several areas. These include student performance and academic growth, school and student characteristics, and many other details. This school report card is an important resource for parents, educators, state leaders, researchers, and others, providing information about school- and district-level data in these areas.

The North Carolina Department of Public Instruction will not be issuing report cards to any NC schools this year because the federal government waived all assessments for North Carolina Schools.

If you would like to view the Bear Grass Charter Schools report cards from past years, you may do so here: <https://www.dpi.nc.gov/data-reports/school-report-cards>

Please contact Mrs Modlin at mmodlin@beargrasscharter.org with any questions.

Sincerely,

Maren Modlin
